> emporary is getting perfectly furious over the late homicide at Port Samia and is so extremely raving that we charitably candude the Local is beside himself. Now no one in the land deprecates more than we do, the lamentable event by which the commerce of the lakes was deprived of an able and efficient officer, a wife and children deprived of a kind husband and father, and the awful crime of And from on murder fixed, as an eternal stain upon the character of the perpetrator, but, with our horzer of the deed, and our indignation at the offender we hope we can feel and exercise reason and judgment. We sincerely hope the U. S. Marshal may be convicted of the crime of which he is undoubtedly guilty and of the crime of which he is undountedly guild and one Million other than that he may suffer the penalty which justice demands, but we will not openly advocate lynching as the proper remedy to apply even in such an aggravated case. Last evening's Herald says:

"The expression is universal that the miserable scoundrel, Tyler, should meet a felou's death on the nearest tree.

Again,—
"The feeling of horror at the deed is universal in this city, and if the wishes of our citizens could be carried out, the brutal Tyler would ere this be swinging from the branch of a tree, or dangling from the yard arm of the Concord, on the deck of which the murder was committed. It is regretted by all that the crew of the brig did not out to pieces the thief and unreferer before he had time to leave the deck."

Would not the Herald like to see a stake thrust

through the body of the Marshal and have him pinned to the earth at some "four corners," after the manuer of the "dark ages"! Would it not like to see him strung on a wire stretched from the Wed, dell to the American; to have him carried through ne of Baldwin & DeWitt's straw cutters; to have him flayed alive a la barbecue at a mass meeting of the friends of law and good order, to put a large book in his gills and torture him as cruel boys do with fishes,or to have some other equally Christian and refin ed punishment inflicted upon him? We have been about the city some, have conversed with several persons in regard to this deed, and do not remember to have heard the wish seriously expressed to see Tyler torn in pieces by a mob, or cut to pieces by an enraged crew.

Let us not be misunderstood. We are well aware that this is no laughing matter, and we know that, from the testimony offered, the bloody deed deserves an awful retribution; but we are not in favor of the position taken by our contemporary, and we cannot think that the Cleveland public, the carnest and substantial citizens, would wish to see Tyler disposed of in a manner which would be termed murder itself, were it done by a Southern slaveholder upon a slave who had been guilty of

A Good One -The officials about the Court House tell a story about a certain gent, who has grown grey in the service of the county as a pro-fessional juryman. It seems that one of the Judges had finished charging the jury, (among whom as usual sat our friend) in a very import ant case which had been in progress of trial for some days, when to the great astonishment of all present, the professional arose from his seat and begged to call the attention of his Honor to a slight mistake he had made in his charge, and actually quoted authorities to sustain his posi-tion. Upon referring to his citations it was found to the no small amusement of the specta-tors, that the juryman was right and his Honor was wrong, whereupon with all due gravity he informed the bench that he knew he was correct, as he had been charged at least forty times or thesame point in the last four months, and

couldn't be mistaken. - Cin. Com. FREMONT & INDIANA RAILEGAD.—The work of tracklaying on the Fremont & Indiana Railroad will be resumed on Monday next. A locomotive has been loaned by the C. & T. road until they shall receive a new one which has been ordered. A second installment of 1,200 tons of iron is now arriving.
